What is *Managing Safely*?

- A practical, 3-day course to help managers embed a positive health and safety culture across the organisation
- Innovative format with engaging content: full of case studies and scenarios that managers can easily identify with
- No jargon or off-putting legal language

Who is it for?

- Managers and engineers in any sector and any organisation
- Anyone who wants to get updated on the knowledge and practical tools to tackle their health and responsibilities

Course overview

1. Introducing *Managing Safely*: Why managing safety is a core responsibility for every manager.
2. Assessing Risks: Understanding risks and learning how to carry out effective risk assessments.
3. Controlling Risks: Exploring practical methods to reduce and control workplace risks.
4. Understanding Responsibilities: Clarity on legal duties and building an effective safety management system.
5. Understanding Hazards: Awareness of common workplace hazards and how to address them.
6. Investigating Incidents: How to find root causes and learn from workplace incidents to prevent their recurrences.
7. Measuring Performance: Using inspections, audits, and other performance indicators to drive continual improvement.

There are **no entry requirements** for this course. However, learners must have a suitable standard of English language to understand and articulate the concepts contained in the course.

Each module is backed by:

- Real-world examples and scenarios
- Clear summaries of key points
- Practical checklists and tools

The **assessment** consists of a 45-minute test (MCQ) and a risk assessment exercise, which takes up to two hours. **Successful candidates receive an IOSH Managing Safely® certificate issued by IOSH, UK.**

Benefits

Delegate benefits

Gain practical skills to manage health and safety risks effectively.

Build confidence to influence teams and lead with safety.

Achieve an internationally recognised IOSH certification.

Strengthen your career prospects and professional credibility.

Organisation benefits

Provides assurance of a safer workplace from training that's designed and quality-controlled by IOSH

Flexible delivery to suit business demands

Efficient and effective learning: health, safety and wellbeing basics are covered in a single programme

Globally recognised, respected, and certified training for managerial staff

Making the case for *Managing Safely*: A business case toolkit

Completing IOSH *Managing Safely* not only strengthens your own knowledge and confidence but also brings measurable value to your organisation. By making the case to your employer, you can show how your learning directly supports safer operations, reduced risks, and improved performance. Here's how the course benefits translate to business benefits for your organisation.

- Reduced incidents and downtime → Lower costs from fewer accidents and disruptions
- Legal and regulatory compliance → Greater assurance of meeting global best-practice standards
- Improved productivity → Safer workplaces mean fewer delays and higher efficiency
- Positive safety culture → Managers who role-model safe behaviours inspire employees to do the same
- Reputation and trust → Demonstrates the organisation's commitment to employee health, safety, and wellbeing

Hear from our delegates!

Great course, all thanks to a great and knowledgeable trainer

Really enjoyed the course – very informative with real life stories. The practical approach made learning more meaningful. It gave us practical knowledge we can carry into our real life situations and workplaces. I really appreciated our trainer-Adam, how he focused on helping us understand the course content, not just pass the exam. He was very engaging and encouraging, he broke down the complex topics in a way that actually made sense. Thank you!

Excellent user friendly IOSH Course

I found the course very user friendly and helpful. I feel all of the topics covered were layed out well and easy to follow. I would recommend to anyone considering taking the IOSH course.

IOSH Managing Safely

I recently sat the IOSH managing safely course which was very well presented by the trainer, Martin. Very informative and insightful.

IOSH Managing Safely course...

Maria did a IOSH Managing Safely course at our work place, she made it fun, interactive and interesting. The course was intense but she made it interesting and kept everyone engaged

Why study with British Safety Council

Join a trusted community of learners

- Consistently rated 4.7/5 on Trustpilot, reflecting delegates' satisfaction, worldwide

Learn from the best

- Tutors who bring decades of real-world safety expertise to the classroom

Access your results immediately

- No long waits; download the soft copy of the certificate as soon as you finish the test

Benefit from a legacy of excellence

- Over 60 years' experience in developing safety professionals across industries

Feel supported every step of the way

- From enrolment to exam success and beyond, our dedicated Education Officers are committed to your progress

What makes our tutors exceptional?

All our trainers:

- are either Tech members, Graduate members, or Chartered Members in IOSH,
- have up to date CPD,
- have an adult training qualification at level 3 on a regulated qualifications framework (RQF); OR have successfully completed the IOSH Train the Trainer course,
- have two years' substantial, face-to-face training delivery experience.

M Kamarajan, Head, Education & Training, BSC India

45+ years of distinguished experience leading India's safety landscape with senior EHS leadership roles.

Specialist trainer and consultant in safety management systems, behavioural safety, senior leader development, and risk management.

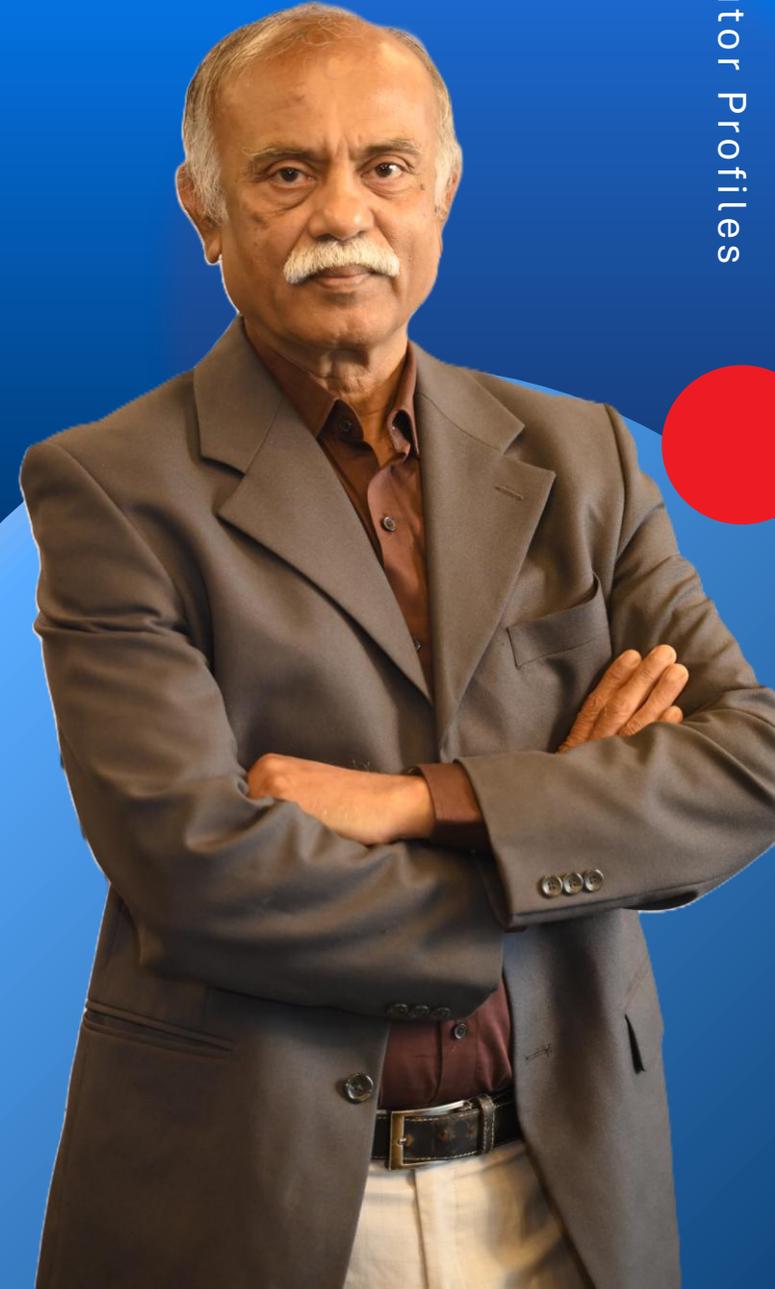

Global exposure: 17 years in Dubai with assignments across the Middle East, Turkey, Philippines, Bhutan, and Sri Lanka.

Proven leadership: Headed EHS departments for three decades and led an EHS consultancy firm in Dubai.

Accredited expert: Certified IOSH and NEBOSH trainer, qualified BSC Five Star Auditor, ISO 45001/14001 assessor.

Accomplished educator: Designed and delivered 100+ impactful safety courses for professionals and engineers.

Industry breadth: Extensive work across construction, utilities, engineering, transport, and automotive sectors.

Maya Rajan, Senior Trainer

25+ years of experience in organisational development, occupational health & safety, and HSE training.

Accredited trainer and examiner for IOSH, NEBOSH, and ISEP courses; also a NEBOSH examiner.

Proven expertise in behaviour-based safety, leadership training, risk management, and business continuity planning.

Leadership in L&D: Designed learning systems, aligned corporate values programmes, and customised manager development programmes.

Diverse client base: Partnered with global and Indian organisations across industry sectors such as oil & gas, retail, FMCG, financial services, and e-commerce.

Extensive consultancy track record: Guided companies in building strong safety cultures, training BBS champions, and delivering tailored safety interventions.

Auditing and assessment: Experienced in BSC's Five Star Audits and international safety standards.

Strong academic and professional foundation: Holds NEBOSH International Diploma & IGC, Grad IOSH membership, and multiple certifications in safety, risk assessment, and fire safety.

Sujilal Sadasivan, Associate Trainer

24+ years of experience in health, safety, and risk management across infrastructure, oil & gas, and industrial sectors.

IOSH- and NEBOSH-approved trainer, assessor, and lead tutor, with 1,600+ hours of training delivered.

Specialist expertise in hazard identification, incident investigation, fire safety, emergency response, and process safety management (PSM).

Key leadership roles: Held senior health & safety leadership positions in large-scale infrastructure projects, high-risk oil & gas operations, and defence services.

Accredited auditor and assessor: Experienced in BSC Five Star Audits, OHSAS 18001, and ISO 14001 compliance.

Professional credentials: Holds multiple NEBOSH qualifications, IRCA-approved Lead Auditor certifications, and a 'Competent Person' certification from the Scaffold Training Institute, USA.

Global recognition and memberships: Member of IOSH, IIRSM, ASSE, and the Institute of Engineers (India). Approved Chief Safety Expert for metro rail projects and Approved HSE Advisor for oil & gas operations.
